

# Feeling Useful – Daily Living Task

## Spring Clean!

Spring is the traditional time to give the house a really good clean. Do a little every day.

Start with dusting - many residents will find feather dusters easiest to use. Don't forget to do picture frames, bookcases and around mirrors.

Then out with the Brasso, and give the brasses a good shine.

Help by shaking out mats and sweeping into corners.

Where possible, give a hand cleaning the inside of windows.
